

Magento 1 Plugin

2020.1

Roger.bi@flexigroup.com.au
Flexigroup

Overview

The Magento1 Plugin aims to rebuild functions and modules for Humm payments and better services for Magento Merchants and clients

Goals and Functions

1. Rebuild API call
2. Add product widget
3. Add cart widget
4. Rebuild admin console, style is same to Woo and Magento2
5. Add API timeout configuration
6. Refund function
7. Support NZ and AU stores
8. Force Humm function auto swift from Oxipay to Humm
9. Log file rebuild
10. dynamic widgets show position (TBC)
11. remove unnecessary hardcoded
12. redesign cancel order function (cancel order rolls back stock of inventory)
13. add Humm orders menu in the admin panel -> sales-> humm orders, show order status changing history
14. add HummCron.php crontab modules to clean redundancy pending orders
15. clean span of days configure in the admin, enable/disable configure in the admin
16. crontab time set in the config.xml default is */30 * * * *

Specifications

New Admin Console for configuration of payment credential, Widgets and API timeout
